

COMING AUTUMN 2023

4K HDR PPU

Standby Television has invested over £100k in the last 12 months bringing Riedel Communications and a brand new 4K HDR PPU powered by the latest production switcher by Sony capable of 4K and HDR Productions. Standby Television is now bringing its clients first class de-rig PPU facilities which you would find in a multimillion pound studio all delivered in one ULEZ compliant van to help improve your **Albert Sustainability**.

Standby Television can provide you with 4K Large Sensor Cameras incl the Sony HDC-F5500 Cameras, Sony HDC-3500 Cameras, and for HD the Sony HDC-2500 Camera. Other cameras available on request. All Camera ISO's and TX recorded onto SSD drives with audio and timecode for you to take away.

If you have a project that requires facilities however big or small please contact us on the below details.
